

The Magnolia Springs Dental Savings Plan

**** Note:** For our Periodontal Maintenance Clients, cleanings are often recommended every 3-4 months. Often these cleanings are alternated between a periodontal specialist and our office. Should you need more than 3 periodontal maintenance cleanings in our office, you will receive 15% off the additional periodontal maintenance cleanings performed in our office.

Our Magnolia Springs Dental Savings Plan

is specially designed to help you and your loved ones receive the highest quality care at a price you can afford.

Benefits: No claim forms, pre-authorizations, deductibles, yearly maximums, or waiting periods.

Guidelines: The patient's portion of services is due the day of service. Our Dental Savings Plan cannot be used in combination with another dental plan, insurance, or financing program (CareCredit). The Dental Savings Plan fee is nonrefundable. A patient may opt not to use the plan benefits, however the cost of the plan will not be refunded. A \$50 reinstatement fee will be charged if your plan lapses. Plan discounts do not apply to procedures referred out to specialists or other dental offices.

This is a savings plan and NOT a dental insurance plan.
